

BRAND NEW *ESPAÑOL RÁPIDO* CLASSES!

LEVEL III JANUARY 23-27, 2006

Now you'll not only learn Spanish easily and quickly, but you'll also learn the secrets of the amazing ancient Mayans! Our new course material includes information on their sacred calendar, the lost codices containing crucial information hidden for hundreds of years, insights into who you are personally, and compelling wisdom for these turbulent times. Much of this information has come from Diane Dávalos' study with Guatemalan Elders and has never before been published!

Diane is the founder of Expanded Learning, instructor for this course, and author of the play that we'll use, "Voces antiguas del futuro" ("Ancient Voices of the Future"). This class, like all *Español Rápido* classes, will enable you to learn 3-5 times faster than traditional classes and have a wonderful time learning.
